

## Puppy Pre-School

Get 'Junior' headed in the right direction, from the start! It is NEVER too early to start training...in fact, the earlier the better to take advantage of the various windows of optimum socialization that pups go through.

We capitalize on 'Junior's' exuberance and drive to play, play, play...

We use only positive, force-free training methods that channel the pup's energy into fun learning experiences.

Our Puppy Pre-School consists of a total of 5 hours (*typically*: 5 one hour sessions-tailored to you and your pup), each scheduled approximately 2 weeks apart, and includes the following instruction:

- Setting up the right relationship with your pup
- Setting up the best living environment for your pup
- Setting up the best nutrition and health for your pup
- Choosing the most fun and durable toys for your pup
- Setting up the most effective house training program for your pup
- Setting up the most reliable socialization program for your pup
- Setting up the right relationship between kids and dogs
- Establishing the foundation for basic manners
- Setting up the best play time and games for you and your pup
- Channeling the 'Chewing Machine'
- Setting the foundation for worry-free walking
- Setting up the life schedule for your pup
- Choosing the best training tools
- Open Q&A on any issues relating to your pup

Additionally, we include:

- Clickers for each member of the family & high value training treats
- Customized Goal Directed Lesson Plans
- Textbook: *Puppy Primer*, Patricia McConnell, PhD & Brenda Scidmore, PhD
- Instruction Sheets for various skill sets
- Training Tips Guidelines
- Personalized teaching, training and coaching in an upbeat, supportive and fun environment
- 'Homework' check sheet to help keep you on track between sessions
- Telephone support between sessions, as you need it
- E-mail support between sessions, as you need it
